

# NEW SHOP LIGHTING AT HUIS & WONEN

Gorinchem, Netherlands

## FACTS AT A GLANCE

### TRACKLIGHT SPOT IN THE SHOWROOM

The LEDVANCE TRACKLIGHT SPOT is a luminaire with impressive functionality and ensures that the showroom is illuminated excellent, thanks to the very good color rendering index of CRI  $\geq 90$ . The ideal luminaire for shop lighting.

### FACADE LIGHTING WITH FLOODLIGHT

Thanks to the FLOODLIGHT luminaire of LEDVANCE, the building is perfectly illuminated and clearly visible from a distance. Compared to floodlight luminaires based on halogen technology, energy savings of up to 90 % can be realized with the LEDVANCE FLOODLIGHT luminaire.

## TRACKLIGHT SPOT

## FLOODLIGHT

# HUIS & WONEN COMPLETELY ILLUMINATED WITH LEDVANCE LED LIGHTING SOLUTIONS

To meet the owner's requirements for optimal lighting of the shop the whole lighting situation was upgraded for all indoor and outdoor areas, in order to create the right atmosphere and significant energy savings.

## THE CHALLENGE

Years of experience in the residential sector and with craftsmanship make Huis & Wonen the specialist for refurbishing your home. An entire new lighting installation was required for the renovated building in Gorinchem. The lighting used should set the appearance of the shop in the right atmosphere, inside as well as outside.

## THE SOLUTION

For the showroom, the LEDVANCE TRACKLIGHT SPOT D75 25W luminaires were chosen, ensuring that large areas are efficiently illuminated and that the products are excellent lit thanks to the very good color rendering index of  $CRI \geq 90$ . And by using the precise light distribution of the FLOODLIGHT 20W and 50W luminaires of LEDVANCE, the exterior of the building including the logo is perfectly illuminated.

## THE BENEFITS

The combination of the installed luminaires creates a pleasant showroom atmosphere and ensures that all the products in the shop are shown in their best light. Additionally, energy savings of up to 90 % can be realized with the new LED lighting installation, compared to lighting products based on conventional technology.

## SUMMARY

The lighting solution from LEDVANCE was ideal due to several important aspects. The luminaires used were easy to install. Moreover, the luminaires ensure that large areas of the showroom are illuminated efficiently, and the products are highlighted well. In other areas of the building LEDVANCE DAMP PROOF and PANEL luminaires were installed as well. And on the parking lot right outside OUTDOOR BOLLARD LANTERN luminaires of LEDVANCE were mounted.

"The lighting from LEDVANCE for Huis & Wonen gave us advice and quality for the right atmosphere"

Jan Walhain, owner of Huis & Wonen in Gorinchem.

LEDVANCE TRACKLIGHT SPOT luminaires were used for general but also for accent lighting.

LEDVANCE FLOODLIGHT luminaires ensure an evenly well lit facade and logo.
