information

ValueLED™ CCT Selectable Flood Lights

- Available in 9 wattages in 5 sizes from 15W to 330W with an LPW up to 150
- DLC5.1 Premium listed to maximize rebate opportunities
- CCT selectable with 3000K, 4000K, and 5000K in a single unit and includes a ½" knuckle and trunnion (35-80W) or a slipfitter and trunnion

UltraLED™ Ultrasonic Stairwell

- Features both CCT (3500/4000/5000K) and Lumen selectability in 2-foot and 4-foot lengths
- Fixtures feature a high-resolution ultrasonic motion sensor that is ideal for detecting motion in complex areas such as stairwells
- Available with optional emergency back-up units, and carry a DLC Premium listing for maximizing rebate opportunities

Hi-PerformanceLED™ Saturn Ring Selectable

- Developed with a slim and modern design for residential, hospitality, and retail applications
- High performance illumination and a 5-year warranty
- Now includes an optional sensor or sensor plus emergency back-up, as well as an integrated 5 color selectable switch

Hi-PerformanceLED™ Puff Ceiling

- Developed with a slim and modern design for residential, hospitality, and retail applications
- High performance illumination and a 5-year warranty
- Now includes an optional sensor or sensor plus emergency back-up, as well as an integrated 5 color selectable switch

Hi-PerformanceLED™ Slim MICRODISK™

- Developed with an ultra slim (less than 1") profile and modern design
- High performance illumination and a 5-year warranty
- Now includes an optional sensor or sensor plus emergency back-up, as well as an integrated 5 color selectable switch

LEDVANCE GROW LIGHT

- A new professional solution for green houses and vertical farms
- High efficacy 2.7µmol/J Indoor Spectrum, with peaks for red (660nm) and blue (450nm) light, replaces natural light and helps promote plant growth
- Available in 3 different wattages (480, 660 and 960W), they are dimmable 0-10V, interconnectable and very easy to install

HID Retrofit

UltraLED™ Linkable Work Lights

- An ideal solutions for temporary lighting designed for construction and job site applications
- Replaces traditional HID and fluorescent lights with up to 75% energy savings and an IP65 rating
- Comprised of 5 LED lamps, these strings are linkable up to 48 sets (or 240 lights).
- Designed to pair with the existing UltraLED™ Work Light family
- DLC listed to maximize rebate opportunities.

Lamps

Dusk to Dawn

- Dusk-to-Dawn lamps have a built-in light sensor that automatically turns on the light under low-light conditions
- Designed for indoor or outdoor applications.
- Available in A19, A21 and PAR38.

LEDlescent™ T8 Ballast-Free Lamp

- An extension to the LEDlescent™ T8 Family of Ballast-Free lamps
- Operates directly on 120-347V which makes it ideal for applications where higher voltage is in use
- An energy saving alternative to both T8 and T12 Fluorescent lamps using only 15 Watts and are installed by bypassing the existing ballast
- UL Classified under UL Standard 1598C therefore installation does not void the UL of the existing fixture
- DLC listed to maximize rebate opportunities.
