PERFORMANCE CLASS HIGH BAY HAZARDOUS LOCATION

- The new Hazardous Location High Bay luminaires are the perfect option for those rough and rugged locations.
- Safety is our priority. That's why we've engineered our Hazardous Location LED Light Fixtures to deliver uncompromising safety, durability, and performance in the most extreme conditions.
- When failure is not an option, trust lighting that's built to endure.

PERFORMANCE CLASS LINEAR HAZARDOUS LOCATION

- Linear Hazardous LED Light, a cutting-edge lighting solution designed for high-risk industrial environments.
- High Impact polycarbonate diffusers ensures longevity, energy efficient, explosion proof design, and backed by industry certifications and a 5-year warranty, it is the smart choice for professionals who refuse to compromise.

PERFORMANCE CLASS FLOODLIGHT HAZARDOUS LOCATION

- Our explosion-proof floodlight delivers high-output performance for hazardous locations.
- With tool-free wiring access, a versatile yoke bracket for easy installation, and rugged construction that stands up to harsh environments, this flood is your reliable solution when the job gets rough.

PERFORMANCE CLASS JELLY JAR HAZARDOUS LOCATION

- Small but mighty, our explosion-proof Jelly Jar fixture offers maximum protection in a compact form.
- Designed for tight spaces, it features multiple mounting options and lens sizes for application flexibility.
- It's durable build and clean design make it a trusted choice for industrial and hazardous environments.

PERFORMANCE CLASS STRING LIGHT

- Built for tough job sites, these integrated string lights combine rugged performance with unbeatable value.
- With an IP65 rating, they are sealed against dust and protected from water jets - perfect for construction zones and outdoor work.
- Each 18 AWG string supports daisy-chaining up to 400 feet (40 lamps), giving you flexible, extended lighting coverage without hassle.
- Whether you are lighting up a new build or a renovation site, these lights are ready to work as hard as you do.

PERFORMANCE CLASS LINEAR SLOT

- We are excited to announce our latest addition to our architectural portfolio, the Performance Class Linear Slot.
- With so many more options for installations, EMBB, sensors, finishes, up/down light distribution, lenses, etc., customize each install for each project.
- Product will be available as a selectable CCT, wattage and light distribution direct/indirect only in 2ft, 4ft and 8ft options, direct and direct/indirect light output with white, black, and silver finishes.
- Ideal for modern, indoor ambient lighting applications.

PERFORMANCE CLASS BLUETOOTH® LOW ENERGY MESH ENABLED CONNECTED TROFFER/DOOR KIT 7B LINE EXTENSION

- Designed to enhance versatility and improve light distribution while maintaining all the benefits of our existing lineup.
- This new offering is DLC 5.1 STD certified, ensuring industry-leading energy efficiency and performance. With a flexible 120-347V solution, it seamlessly integrates into a variety of installation environments.
- Plus, it's built-in Bluetooth® connectivity allows for effortless control through a mobile app or an optional wireless wall switch, giving users a more convenient lighting experience.

VALUE CLASS EXIT AND EMERGENCY LIGHTING

- The new Exit and Emergency lighting has all your needs covered.
- From the basic exit or the Combo unit with remote capability and self-diagnostic, we have all the options.
- Our sleek design features both red and green lettering eliminating the need for additional stock.
- These are the ideal solutions for all your commercial facilities to make sure everyone gets out safe!
