Additional Information:

Insulation:

Equipotential terminal (metal housing) is reinforced insulated from primary circuit (protective impedance) and may be connected to PE for reasons other than safety. Metal housing is touch safe in class II luminaire.

1-10 V is basic insulated from primary circuit, and has supplementary insulation from secondary circuit.

Output terminals (SEC on rating label) are double or reinforced insulated from primary circuits.

The original report was modified to include the following changes/additions:

- update EN standards

This ENEC certificate replace the earlier issued ENEC certificate No. ENEC-01232-M2.
