PERFORMANCE CLASS WATTAGE SELECTABLE SPORTS LIGHT

- Available in 4 max wattages as a complete solution for your sports and large area lighting needs. It is available in 400W, 500W, 750W and 1200W max with a yoke mounting bracket and handle for easy installation and aiming
- The Sports Light is available in NEMA 3 x 3, 4 x 4, and 5 x 5 distribution and includes a rotatable visor to minimize spill light
- They are DLC 5.1 premium listed to maximize rebate opportunities

SUPERIOR CLASS DUAL SELECTABLE DOWNLIGHTS

- Design and performance were combined to create the new Superior Class Dual Selectable downlights
- Ideal solution for any project, the downlights are 5 CCTs and 3 lumen levels in the same SKU
- The downlights also include low glare with UGR <19, and semi-specular with specular and white reflectors as options

PERFORMANCE CLASS CCT SELECTABLE SCREW-BASE DOWNLIGHT

- The new Performance Class CCT Selectable Screw-Base Downlights has extended the RT family by offering high efficiency LED light with smooth or baffle reflectors in both 4" and 5/6" versions
- The downlights have 50,000h lifetime, 5-year warranty, are ENERGY STAR® listed and CEC complaint

VALUE CLASS SCREW-BASE DOWNLIGHTS

- The new Value Class Screw-Base Downlights are the most economical and reliable solution for residential applications
- Ideal for both retrofit and new construction, they can be easily installed in a housing can, are available in 4" and 5/6", and come in smooth and baffle reflectors
- We have upgraded the lifetime to 25,000h and they are also ENERGY STAR® listed and CEC complaint

VALUE CLASS LED FLAT PANELS

- The new Value Class Panels are the most economical solution in the Flat Panels portfolio
- Available in 2x2 and 2x4 sizes and 4000K
- They deliver everything needed for retrofit and new constructions straight out-of-the-box

VALUE CLASS CCT SELECTABLE LINEAR SLOT

- We are introducing a new product family to our Indoor Luminaires portfolio! The architectural Linear Slot fixtures are the perfect balance between modern, elegant design and high quality linear light
- Choose between direct only or direct + indirect light with pendant, surface, recessed or wall mounting, according to the application needs
- The new 2ft, 4ft and 8ft products are also interconnectable and 3000-3500-4000K selectable

VALUE CLASS DUAL SELECTABLE UFO HIGH BAY 3A

- The new Dual Selectable UFO 3A is available in two wattage ranges: 100W, 120W, or 150W and 200W, 220W, or 240W. Both models also feature the selectability of 3500, 4000, or 5000K CCTs
- Available in black or white, these lightweight aluminum fixtures are easy to install with the included open hook or with optional mounting accessories
- For even greater installation flexibility, these fixtures feature optional field installable screw-in motion/daylight sensors and EMBB as well as a multiple refractor, reflector, and wire guard options

VALUE CLASS DUAL SELECTABLE LINEAR HIGH BAY 5A

- Available in three wattage ranges with max wattages of 165W, 220W and 300W, these luminaires also feature the convenience of 4000K or 5000K CCT selectability. This means just one SKU provides the ability to choose six different wattage/CCT options
- The fixtures are shipped with V-hooks and 3-foot mounting chains and there are several optional mounting accessories available to meet the requirements of most any installation
- For even greater installation flexibility, these fixtures feature optional field installable screw-in motion/daylight sensors as well as optional wire guards

LAMPS

SubstiKIT™ LED T8 TYPE C SYSTEM - LAMPS & DRIVERS

- Choose LEDVANCE SubstiKIT™ dedicated lamps and drivers to upgrade your traditional fluorescent fixtures for the most controllable lighting system retrofit which is dimmable by adding 0-10V dimmers to the installation
- Available in 2-ft, 3-ft, 2 different wattages of the 4-ft and Ubend options, all operated by only 2 driver choices: a 1-2 lamp or a 3-4 lamp driver, reducing your inventory and eliminating mis-matched installations on the job site
- The drivers have intelligence to sense the lamp load and will not overdrive lamps in the installation should a lamp fail resulting in reliable system performance

BALLASTS

tapTronic™ NFC LED DRIVERS

- 100% Field-programmable, the new LEDVANCE tapTronic™ LED Drivers come with the latest interface data transfer communication. NFC (Near Field Communication) converts your smart phone to your personal programming tool via our free contractor friendly APP
- Customizing our drivers are now easier than ever and can be virtually done from anywhere and at any time
- Power to the driver is not required during programming
- Designed to have a larger programming range, reading and programming our drivers is just a tap away

LEDVANCE NEW BALLASTS

BALLASTS

DIM MODULE

- Choose LEDVANCE Dim Module to add dimming function for our DUALescent™ lamp family
- Dim Module works with 0-10V dimmer as a dimming control system
- Our Dim Module meets DLC 5.1 requirements. Product has a 5-year warranty, Trusted National Warranty Program
