

# PRODUCT DATASHEET ST CLAS A 25 2.8 W/2700 K E27

LED Retrofit CLASSIC A DIM | Dimmable LED lamps, classic bulb shape

#### Areas of application

- Perfect for decorative installations
- Domestic applications
- General illumination
- Outdoor use in suitable outdoor luminaires only

#### Product benefits

- Lamps with innovative LED "filament" technology
- Lower energy consumption than incandescent or halogen lamps
- No UV and near-IR radiation in the light beam
- $-\,$  Instant 100 % light, no warm-up time
- Can be easily fitted instead of ordinary light bulbs
- Lower thermal output (compared with the standard reference product)
- Design, dimensions, luminous flux comparable to a halogen lamp

#### **Product features**

- Professional LED lamps for line voltage
- Dimmable (with many common dimmers, see also www.ledvance.com/dim)
- Beam angle: up to 360°

- Lifetime up to 15,000 h
- Lamp made of glass

## TECHNICAL DATA

## Electrical data

| Nominal wattage                        | 2.8 W    |
|----------------------------------------|----------|
| Construction wattage                   | 2.80 W   |
| Nominal voltage                        | 220240 V |
| Claimed equiv. conventional lamp power | 25 W     |
| Nominal current                        | 13 mA    |
| Type of current                        | AC       |
| Inrush current                         | 1.2 A    |
| Operating frequency                    | 5060 Hz  |
| Mains frequency                        | 5060 Hz  |
| Max. lamp number on MCB B10 A          | 696      |
| Max. lamp number on MCB B16 A          | 1115     |
| Power factor $\lambda$                 | > 0.50   |

#### Photometrical data

| Luminous flux                           | 250 lm     |
|-----------------------------------------|------------|
| Nominal useful luminous flux 90°        | 250 lm     |
| Luminous efficacy                       | 89 lm/W    |
| Lumen main.fact.at end of nom.life time | 0.70       |
| Light color (designation)               | Warm White |
| Color temperature                       | 2700 K     |
| Color rendering index Ra                | ≥80        |
| Light color                             | 827        |
| Standard deviation of color matching    | ≤6 sdcm    |
| Rated LLMF at 6,000 h                   | 0.80       |

EPREL data spectral diagram PROF LEDr 2700K

# Light technical data

| Beam angle          | 320°     |
|---------------------|----------|
| Warm-up time (60 %) | < 0.50 s |
| Starting time       | < 0.5 s  |

## Dimensions & Weight

| Overall length   | 105.00 mm |
|------------------|-----------|
| Diameter         | 60.00 mm  |
| Maximum diameter | 60 mm     |
| Product weight   | 32.00 g   |

# Temperatures & operating conditions

| Ambient temperature range            | -20+40 °C |
|--------------------------------------|-----------|
| Maximum temperature at tc test point | 50 °C     |

## Lifespan

| Number of switching cycles                   | 100000 |
|----------------------------------------------|--------|
| Lumen maintenance at end of service lifetime | 0.70   |
| Rated lamp survival factor at 6,000 h        | ≥ 0.90 |

## Additional product data

| Base (standard designation) | E27                                                                                                                                                                                                                                                                                                                                          |
|-----------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Mercury content             | 0.0 mg                                                                                                                                                                                                                                                                                                                                       |
| Mercury-free                | Yes                                                                                                                                                                                                                                                                                                                                          |
| Product remark              | All technical parameters apply to the entire lamp / Due to the complex production process for light-emitting diodes, the typical values shown for the technical LED parameters are purely statistical values that do not necessarily match the actual technical parameters of each individual product, which can vary from the typical value |

# Capabilities

## Certificates & Standards

| Energy efficiency class                      | F 1)           |
|----------------------------------------------|----------------|
| Energy consumption                           | 3.00 kWh/1000h |
| Type of protection                           | IP20           |
| Standards                                    | CE             |
| Photobiological safety group acc. to EN62778 | RG0            |

1) Energy efficiency class (EEC) on a scale of A++ (highest efficiency) to E (lowest efficiency)

## Safety advice

- Do not touch the lamp if broken.
- Must not be used if outer bulb is defective.
